

ASSISTED STEERING SYSTEM

The EZ-Pilot® assisted steering system provides high-accuracy steering at an affordable price. When you are driving your vehicle the EZ-Pilot assisted steering system turns the steering wheel for you with an electric motor drive using GPS guidance from select Trimble® displays.

While the EZ-Pilot system keeps you on line, you can focus on many different tasks, such as sprayer or planter performance, improving job quality and crop yields.

REDUCED FATIGUE

With hands-free guidance, the EZ-Pilot system allows you to operate with ease and improve safety on your farm.

CLEAR ACCESS TO CAB CONTROLS

The EZ-Pilot system integrates directly into the steering column, providing clear access to all instrument panels with no decrease in leg room in the cab.

OPTIMAL PERFORMANCE

The EZ-Pilot system allows you to maximize your uptime by helping you complete field operations quickly, efficiently, and productively.

INTEGRATES INTO THE ENTIRE FLEET

The EZ-Pilot system's quick-responding, high-torque motor is able to effectively steer various agriculture vehicles within the fleet, no matter the make, model, or year.

QUICK DISENGAGEMENT

The electric steering motor allows for unrestricted manual steering when assisted steering is not engaged.

DISPLAY COMPATIBILITY

The EZ-Pilot system is compatible with the Trimble TMX-2050™ display, FmX® integrated display, and CFX-750™ display—all of which provide a variety of accuracy levels for any operation

Key Features

- ► High accuracy at an affordable price
- Turns the steering wheel with a compact electric motor drive
- Integrates directly into the steering column for clear access to cab controls
- Allows for unrestricted manual steering when assisted steering is not engaged

TRANSFORMING THE WAY THE WORLD WORKS

Trimble

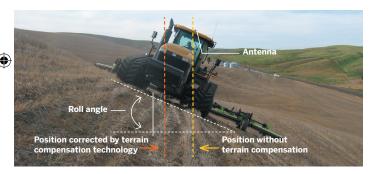

EZ-PILOT ASSISTED STEERING SYSTEM

HIGH PERFORMANCE

- Higher torque steering motor than competitive systems allows unit to steer vehicles with rigid power steering systems, such as floaters
- Fast-reacting motor allows system to quickly get the vehicle online and stay there

EASY INSTALLATION

- Simple cabling and IMD-600 (T3™ Enhanced Terrain Compensation) is small enough to mount anywhere in the cab
- Simple plug-and-play installation requires minimal tools and time to you get back to work more quickly
- ► Professional-looking installation

INCREASED CONTROL IN ANY FIELD TYPE

Advanced T3 sensors built into the EZ-Pilot system module keep your vehicle on line. With these sensors, your steering accuracy is improved in difficult terrain—helping minimize skips and overlaps between passes.

SUPPORTS A VARIETY OF VEHICLE TYPES

- Tractors
- Spreaders
- Tracked vehicles
- Combines
- Articulated tractors
- Floaters
- Self-propelled sprayers
